

ZINC COATED WIRE

Sagati "A" wire is brass core coated with pure zinc. Zinc coating layer enhances A wire's performance to be faster than normal brass wire as well as a better finishing surface. It is recommended for precision and fast cutting work.

- ✓ Cutting speed up to 10% faster than brass wire.
- ✓ Excellent surface finish
- ✓ Competitive price

Composition	Characteristics	Sagati "A" wire	Sagati "A" soft
	Core	CuZn 37	CuZn37
	Coating	Zn	Zn
	Tensile strength	900N/mm2	450N/mm2
	Elongation	1,5%	15,0%
	Conductibility	22% IACS	25% IACS

Diameter	Spool Kilograms							
	K125	K160	K200	K250	K355	P5	P10	P15
